

The iQuery Centre of Excellence for
International Careers and Education

CONCEPT NOTE

The iQuery Centre of Excellence for International Careers and Education

iQuery Australia

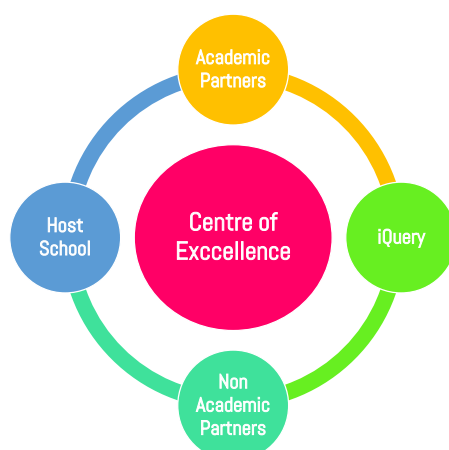

iQuery Australia is a Transnational Education (TNE) Business established and guided by academicians and professionals in education. iQuery brings thorough understanding of sociocultural and educational paradigms of Indian sub-continent. Over 20 years of involvement with various Australian education sectors enables iQuery to be an academic and cultural bridge between the countries we work with as an effective conduit of partnerships.

The Purpose

The purpose of the Centre of Excellence for International Careers and Education is to establish a long-term partnership between iQuery Australia and the Partner School. The Centre of Excellence will provide the combined advantages of capacity and skill building for students at international standards, provide guidance and support for success with university education and career achievements of each student at the Partner School.

The Concept

The Centre of Excellence for International Careers and Education (CoE) as the integral and strategically important partnership between iQuery and the Partner School, will be an on campus eco-system for international career planning, guidance, and support through partnerships with some of the best universities in the world and a range of quality educational partners. It brings together all key stakeholders of the Education to Employment and Course to Career transition for every student.

The Centre of Excellence for International Careers and Education

The Centre sets new benchmarks in providing a wholistic, organic, and long-term services to students and their families.

The Centre of Excellence brings innovative and impactful, academic, and financial benefits to the host school and the wider community.

The iQuery Advantage for The Partner School: The Centre of Excellence (CoE) will

1. Provide the unique advantage of combining quality school education with planning and preparation for international careers
2. Enable business growth the Partner School through better enrolments
3. Provide personalised 'Entry to Employment' plan and support to every student
4. Provide a 7-year personalised career, education, and future-plan for WACE students
5. Create Opportunities for tripartite partnerships with leading universities
6. Generate income from business generated through the CoE.

Through the Centre of Excellence iQuery would have the opportunities to:

1. Mentor, guide, and support students and their families in their career journeys
2. Create innovative academic opportunities for the host school community.
3. Curate innovative global academic partnerships for the school community.
4. Continue development and innovation in the **Entry to Employment** transition
5. Achieve business growth through curated partnerships with students and their families.

Benefits for students:

The Centre of Excellence will have direct major benefits for every student enrolled in the Australian Curriculum. Every student can avail ongoing support from the centre throughout the year. From Year 11 onwards, they will be guided through the **Seven Year Support Program** from **Entry to Employment** and long-term careers in Australia and globally.

Career Advantage Mentoring Program (CAMP):

The Centre of Excellence will also offer Career Advantage Mentoring Program for a discounted fee to all students of the partnering institution. This would involve regular and personalised mentoring sessions with the career counsellors. The participants will also receive additional support with participation in international competitions and experience programs.

Career Counselling Capacity Building (CCCB) for Teachers:

The Centre of Excellence will offer CCCB training leading to their certification as Career Guidance Officers as part of the Centre of Excellence infrastructure.

Career Quest+

The Career Quest+ initiative withing the COE provides preparation and access to the entire suite of career education, planning and mentoring for the key stakeholders including the parents, students, and teachers. Please see the details provided in a separate document.

The Roles and Responsibilities – iQuery Australia

Through the Centre of Excellence, iQuery will have the responsibility to set up and manage the Centre providing exclusive and ongoing support to every student at the Partner School. The following broader roles and responsibilities are required to be fulfilled by iQuery:

- Provide training and professional leadership to the team at the Centre of Excellence
- Actively introduce, sustain, and grow relationships for the Partner School with international universities and other strategic partners

In the operations of the Centre of Excellence the following shall be provided through the '**General Guidelines & Disclaimers**' (GGD) by iQuery

- Guidelines for university admissions: A clear set of general guidelines for university admission will be provided through the **GGD**
- Indicative costs associated with overseas education will be provided through the **GGD**
- Guidelines for visa applications: A clear set of general guidelines for visa applications will be provided through the **GGD**
- A set of key disclaimers will also be provided in the **GGD**

The Roles and Responsibilities – The Partner School

Under this agreement, The Partner School will be responsible to provide the space and assistance to set up and manage the Centre of Excellence to provide the most innovative support system for the best possible educational and career outcomes of every student at the Partner School.

This Centre of Excellence as the equitable partnership between the Partner School and iQuery requires the Partner School to

- Provide the remuneration to the team at the Centre of Excellence
- Facilitate engagements with the students, parents, and all key stakeholders.
- Host career events, partner universities and high-profile visitors like ministers and vice chancellors
- Collaborate with and support all initiatives for career planning and development of students at The Partner School

Financial Benefits for The Partner School

The following model financial responsibilities will be fulfilled by the host school and iQuery.

iQuery	iQuery will provide the expertise, leadership, and management of the COE. The Partner School will receive 20% of the profits generated through student recruitment to global universities. iQuery will also provide concessional CAMP and CCCB programs to teachers and students at the school community.
Partner School	The Partner School will provide the space and resources including the personnel for the centre.

iQuery Centre of Excellence for International Careers and Education Chennai

The iQuery Centre of Excellence became operational at the Vael's International School, Chennai. The services, resources, and the advantages of this centre are extended to each of the 30+ schools in the group spread over six states in India.

Further Innovation and Development

The Centre of Excellence will be guided by the leadership of both iQuery and The Partner School to innovate and adapt to future evolution of international education and career opportunities. An active role played, and contributions made by the partnering universities is also envisioned.

Establishing the Centre of Excellence for on Your Campuses

With the shared commitment to enable students reach their global career goals, iQuery and the Partner Institutions can establish the Centre of Excellence within a few weeks of signing the MOU.
